Letter dated 6 February 2015 from the Permanent Representative of Uzbekistan to the United Nations addressed to the Secretary-General

I have the honour to transmit herewith information on the outcomes of the socioeconomic development programme of the Republic of Uzbekistan in 2014 and on the priorities of the economic programme in 2015 (see annex).

I would appreciate it if you could circulate the present letter and its annex as a document of the sixty-ninth session of the General Assembly, under agenda item 19.

Outcomes of the socioeconomic development programme in the Republic of Uzbekistan in 2014 and priorities of the economic programme in 2015

On 16 January 2015, the Cabinet of Ministers of the Republic of Uzbekistan held a meeting on the outcomes of the socioeconomic development programme in Uzbekistan in 2014 and the priorities of the economic programme in 2015. The President of Uzbekistan, Islam Karimov, presented a report at the meeting.

In his statement, the President noted that, despite the impact of the ongoing global financial and economic crisis, slowing growth rates in the world economy, and deepening stagnation and recession in many countries, Uzbekistan had achieved stable high rates of development of the economy and its major sectors in 2014, thanks to targeted and systematic implementation of the priorities of its economic programme.

The outcomes for 2014 indicate that the country's gross domestic product (GDP) rose by 8.1 per cent, with an 8.3 per cent increase in industrial production, a 6.9 per cent increase in agricultural production, a 10.9 per cent increase in capital construction and a 14.3 per cent increase in retail trade. Around 70 per cent of production consisted of finished goods with high added value.

Inflation was 6.1 per cent, significantly lower than estimates. The State budget had a surplus of 0.2 per cent of GDP, with a decrease in the tax burden from 20.5 to 20.0 per cent of GDP and a reduction in the corporate income tax rate from 9 to 8 per cent.

The reform and strengthening of the banking system created the necessary preconditions for a reduction in the Central Bank refinancing rate from 12 to 10 per cent and a corresponding decrease in the interest rate for commercial bank loans. In recent years, the leading international credit rating agencies have rated the outlook for the Uzbek banking system as "stable".

The implementation of a carefully planned active investment policy on large-scale modernization and the technical and technological upgrading of production as well as social, transportation and communications infrastructure has led to a 10.9 per cent increase (equivalent to $14.6 billion) in investments in the economy. More than 21.2 per cent of all capital investments were from foreign investments and loans, three quarters of which were foreign direct investment. Over 73 per cent of investments went into industrial construction. In the main economic sectors, 154 major facilities fitted out with the latest high-technology equipment and valued at over $4.2 billion were brought online.

Ongoing measures were implemented to support and stimulate Uzbek export producers, boost the competitiveness of their products and help them enter new markets. As a result, there was a net trade surplus of $180 million, and gold and foreign-exchange reserves increased by $1.6 billion.

Systematic measures were undertaken to improve the business environment and create more favourable conditions for small business and private enterprise development. These measures included the opening of a "single window" for the establishment of businesses, maximum streamlining of statistical and tax reporting by small businesses, and significant broadening of access to raw materials for private entrepreneurs. As a result, the share of GDP attributable to small business has grown from 31 to 56 per cent since 2000, while its share of industrial production has increased from 12.9 to 31.1 per cent.

The share of GDP represented by services rose from 53 to 54 per cent. Among high-technology services, the fastest development has been seen in communications and information technology services, which have grown 3.3-fold over the past five years, with growth of 24.5 per cent last year.

This dynamic and balanced economic development has laid a solid foundation for steady improvement in the standard of living and quality of life of the Uzbek people. The wages of employees of State-funded organizations, as well as pensions and stipends, increased by 23.2 per cent last year. Real per capita income rose by 10.2 per cent. In 2014, around one million jobs were created, 60 per cent of them in rural municipalities, and over 600,000 recent graduates found employment.

In his report, the President set out and analysed the remaining problems to be solved and described the actions planned in order to implement the priorities and manage the country's socioeconomic development in 2015. He outlined the tasks to be carried out at all levels of Government by ministries, departments, economic associations and khokimiyats (local governing bodies) to ensure that the necessary measures are taken to maintain high rates of economic growth, extend the structural transformation of the economy, modernize and actively diversify the main industrial sectors, foster the localization of production, and develop the transportation and communications infrastructure. Organizational measures were set out that will further reduce the State presence in the economy to strategically and economically justifiable levels; overhaul the principles of and approaches to corporate management; eliminate all barriers to and restrictions on complete freedom of private property and private entrepreneurship; and create the necessary conditions to ensure jobs for Uzbeks and increase their standard of living and quality of life.

A particular focus was ensuring the implementation of policy measures on the achievement of the goals and objectives for the current year established in connection with the declaration of 2015 as the year of attention to and concern for the older generation, including measures to ensure comprehensive support for seniors, particularly veterans of the war and the labour front of 1941-1945, a higher level and quality of medical and social services, the provision of assistive devices and technologies for rehabilitation, and a complete upgrade of the system of organization of daily living activities and leisure activities for the elderly.

As the outcome of the meeting, the Government adopted a decision in which it identified practical steps towards the implementation of the priorities of the country's economic programme for 2015.

Measures to eliminate international terrorism

Security Council
Seventieth year

Identical letters dated 5 February 2015 from the Chargé d'affaires a.i. of the Permanent Mission of the Syrian Arab Republic to the United Nations addressed to the Secretary-General and the President of the Security Council

The early morning hours of Thursday, 5 February 2015, marked the start of yet another violent, bloody day for Damascus. Scores of missiles and mortar shells were fired indiscriminately at the city just as children and students were setting out for their schools and universities, and employees for their places of work. On that day, armed terrorist groups fired more than 115 shells at Damascus, 6 missiles at the city Ladhiqiyah and 9 missiles at the city of Aleppo. Those shells and missiles, which were of various calibres, struck the homes of peaceful civilians and their children's schools and universities, as well as Government facilities, diplomatic missions and the headquarters of international organizations. Preliminary figures indicate that 26 persons were killed in the attack and another 48 injured, including children, women and elderly persons (the names of those killed and injured can be found in the annex to this letter). The attack also caused substantial material damage, the extent of which is currently being assessed.

The Government of the Syrian Arab Republic recalls that, on 3 February 2015, the terrorist Zahran Allush, who heads the terrorist group known as Army of Islam, which is armed and funded by Saudi Arabia, in particular, with the support of a number of Western States, declared via social media networks that all of Damascus is a military zone and a theatre of operations. He went on to demand that, from Wednesday morning until further notice, all civilians, members of diplomatic missions, schoolchildren and university students should not go near any Government facilities or checkpoints, pass by Government vehicles or move about the city's streets during working hours.

The bombardment of Damascus at 7.30 a.m., the peak hour of daily civilian activity, demonstrates the savagery and criminality of those groups, which certain regional and international Powers are still attempting to protect. They are also seeking to prevent those groups' supporters from being held accountable and to ensure that those groups are not added to the list of terrorist entities maintained by

Please recycle

the Security Council, under the pretext that they are "moderate, armed opposition groups". Anyone who strives to counter terrorism has the right to question how logical it is to continue designating them as "moderate opposition groups" in view of the crimes against humanity they have committed and the barrage of missiles they fired indiscriminately at peaceful Damascus that struck women and elderly persons, even in their homes. Some of the missiles fell a few metres away from the premises of the Indonesian Embassy, while others struck the College of Education and the College of Economics of Damascus University, the Andalus private school and children and innocent civilians in the bedrooms of their homes.

These latest acts of terrorism are the continuation of a series of similar explosions and acts of terrorism that have been carried out in Aleppo and Ladhiqiyah governorates by such armed terrorist groups as Islamic State in Iraq and the Levant, the Nusrah Front, the Army of Islam, the Hazm Movement and the Levant Front, as well as other terrorist organizations that are affiliated with Al-Qaida and in the pay of regimes from the region and beyond, in particular those of Israel, Qatar, Saudi Arabia and Turkey. Those acts of terrorism are also in line with a series of savage crimes that were recently committed, including the slaughter of Japanese nationals Kenji Goto and Haruna Yukawa, and the burning alive of Jordanian pilot Mu'adh al-Kasasbah. Syria has repeatedly warned of the threat that those armed terrorist groups pose to international and regional security and stability. It has also warned against continued State support of terrorism, the grave consequences of which will not be confined to Syria. Its raging fire will spread even to those States that support, fund and arm terrorists. The recent crimes that occurred in France and elsewhere confirm the soundness of the position and vision of the Government of the Syrian Arab Republic, and the need for the States of the world to cooperate and coordinate with it in order to counter terrorism.

In view of the systematic and savage crimes committed by armed terrorist groups, some of which we recounted earlier, and their expanding reach, the Security Council and the Secretary-General must shoulder their responsibilities by condemning those acts of terrorism and coordinating and cooperating with the Government of the Syrian Arab Republic in its war against terrorism. They must also put pressure on those States that sponsor terrorism, some of which we mentioned earlier, to desist immediately from supporting, funding and training those armed terrorist groups that have become known for their savagery, barbarism and blind extremism, and to put pressure on those States also to close the camps in which the members of those terrorist gangs are trained. At the same time, measures must be taken to prevent and bring an end to the flow of foreign terrorist fighters into Syria, in accordance with United Nations resolutions, particularly Security Council resolution 2178 (2014). The Security Council must also add the Army of Islam, the Islamic Front and other terrorist organizations to the list of terrorist entities.

The Government of the Syrian Arab Republic affirms that such acts of terrorism will not lessen the determination of the Syrian people, Government and army to fight terrorism and terrorist groups. Nor will the Syrian people, Government and army allow such acts to frighten and terrorize them and bring life to a standstill. For four years, they have held out in the face of an intense campaign of terrorism aimed at undermining the values, principles, tolerance and the very existence of this proud people.

I should be grateful if the present letter could be issued as a document of the General Assembly, under agenda item 107, and of the Security Council.

Question of Cyprus

Security Council
Seventieth year

Letter dated 10 February 2015 from the Permanent Representative of Cyprus to the United Nations addressed to the Secretary-General

Upon instructions from my Government, I enclose herewith two separate annexes recording the infringements of international air traffic regulations and violations of the national airspace of the Republic of Cyprus by Turkey (see annex I), as well as the illegal use of closed ports by Turkish warships (see annex II) during the month of January 2015. It should be noted that Turkish commercial aircraft systematically use the illegal airport of Tympou.

Furthermore, I wish to inform you that Turkey and the occupation regime illegally issued two notices to airmen, on 7 and 8 January, relating to exercises of the Turkish air force and navy. Your attention is also drawn to the fact that the area illegally reserved was within the national airspace of the Republic of Cyprus.

Turkey's actions are clearly aimed at undermining the sovereignty of the Republic of Cyprus, bolstering the continuing de facto division and upgrading the secessionist entity's status, by claiming a purported airspace over the occupied territory of the Republic. Additionally, Turkey continues to systematically harass civilian and military aircraft within the Nicosia flight information region (FIR) via radio calls. Meanwhile, Nicosia FIR infringements and violations of the national airspace of the Republic of Cyprus continue unabated. Turkey's policy of persistently breaching international law and defying international rules and regulations puts the safety of international civil aviation at risk, has a negative impact on the stability of the region and causes difficulties for air traffic over Cyprus. On behalf of my Government, I strongly protest the continuing infringements of international air traffic regulations and the violations of the national airspace and the territorial waters of the Republic of Cyprus by Turkey and appeal for their immediate cessation.

I would be grateful if you would circulate the present letter and its annexes as an official document of the General Assembly, under agenda item 42, and of the Security Council.

Protracted conflicts in the GUAM area and their implications for international peace, security and development

The situation in the occupied territories of Azerbaijan

Letter dated 10 February 2015 from the Permanent Representative of Azerbaijan to the United Nations addressed to the Secretary-General

I have the honour to draw your attention to the letter dated 8 January 2015 from the Chargé d'affaires a.i. of the Permanent Mission of Armenia to the United Nations (A/69/718-S/2015/11).

The letter and its annex are yet another clear testimony to Armenia's continued policy of misstating facts and falsifying data to conceal its responsibility for endangering the regional peace and security by continuing to occupy the territories of the Republic of Azerbaijan in violation of Security Council resolutions 822 (1993), 853 (1993), 874 (1993) and 884 (1993).

To be specific, while pretending to objectively inform the General Assembly and the Security Council on ceasefire violations, Armenia "forgot" to mention the fact that on 12 November 2014, "MI-24" combat helicopters of the air forces of the Republic of Armenia attacked the defence positions of the armed forces of the Republic of Azerbaijan near the village of Kengerly in the occupied Agdam district of the Republic of Azerbaijan and one of them was downed by the response fire.

It should be recalled that in its resolution 853 (1993), the Security Council condemned "the seizure of the district of Agdam and of all other recently occupied areas of the Azerbaijani Republic" and demanded "immediate, complete and unconditional withdrawal of the occupying forces involved from the district of Agdam and all other recently occupied areas of the Azerbaijani Republic".

The use of heavy weaponry, deployment of 47,000 troops, continuous flights over the occupied territories of the Republic of Azerbaijan and attacks on the position of the armed forces of the Republic of Azerbaijan were reported by Armenia's mass media.

The purposeful concealment of key facts attests to Armenia's deceptive and manipulative practices to deny its role, involvement and grave responsibility for the aggression and occupation of the territories of the Republic of Azerbaijan and its consequences.

Against the background of systematic ceasefire violations and misstatements, Armenia even purports to show that ceasefire violations reported by Azerbaijan allegedly do not coincide with "the operational data of the armed forces of the Republic of Armenia" (see A/69/541-S/2014/746). Indeed, it is hard to believe that the operational data of the Republic of Armenia, the aggressor and occupying State, would coincide with the information reported by the Republic of Azerbaijan, the object of aggression.

On the other hand, by referring and disclosing the operational data of the armed forces of the Republic of Armenia, the representative of Armenia honestly admitted his country's direct involvement and responsibility for the continued aggression against the territorial integrity and sovereignty of the Republic of Azerbaijan.

I should be grateful if you would have the present letter urgently circulated as a document of the General Assembly, under agenda items 33 and 38, and of the Security Council.

Annex to the letter dated 9 February 2015 from the Permanent Representative of Mexico to the United Nations addressed to the Secretary-General

Special communiqué on the question of the Malvinas Islands

The Heads of State and Government of the Ibero-American countries, meeting in the city of Veracruz, Mexico, on the occasion of the twenty-fourth Ibero-American Summit:

Reaffirm the need for the Governments of the Argentine Republic and the United Kingdom of Great Britain and Northern Ireland to resume negotiations as soon as possible with a view to finding an early solution to the sovereignty dispute over the Malvinas Islands, South Georgia Islands and South Sandwich Islands and the surrounding maritime areas, within the framework of the resolutions adopted by the United Nations and the Organization of American States and the provisions and objectives of the Charter of the United Nations, including the principle of territorial integrity. They also underscore the constant willingness of the Argentine Republic to engage in dialogue.

With regard to the unilateral actions being taken by the United Kingdom for the exploration and exploitation of renewable and non-renewable resources in the disputed area, they recall the international community's calls for the two parties to refrain from taking decisions that would imply introducing unilateral modifications in the situation of the Malvinas Islands, in accordance with United Nations General Assembly resolution 31/49, as such decisions are in no way conducive to the attainment of a definitive solution to the territorial dispute.

They note that the reinforcement of the military presence in the disputed area, in violation of the aforementioned resolution 31/49, runs counter to the policy of consistently seeking a peaceful settlement of the territorial dispute between the Governments of the Argentine Republic and the United Kingdom of Great Britain and Northern Ireland.

Consequently, they underscore the successive General Assembly resolutions urging the Secretary-General to use his good offices with a view to the resumption of negotiations for the purpose of finding a peaceful solution to the above-mentioned dispute as soon as possible.

Annex to the letter dated 6 February 2015 from the Permanent Representative of the Russian Federation to the United Nations addressed to the Secretary-General

Statement by the Federation Council of the Federal Assembly of the Russian Federation concerning the seventieth anniversary of the liberation of prisoners from the Oswiecim concentration camp and International Holocaust Remembrance Day

Seventy years ago, on 27 January 1945, the Red Army liberated the prisoners held in the Auschwitz-Birkenau concentration camp near the Polish town of Oswiecim. The wholesale extermination of the peaceful population and prisoners of war of various nationalities, primarily Jews, Roma and Slavs, in the Nazi death camps was without historical precedent. On this day, we mourn and pay tribute to the memory of those who were ruthlessly destroyed by the Nazi State machine.

It was no coincidence that 27 January — the date of the liberation of Oswiecim by the Red Army — was declared International Holocaust Remembrance Day by resolution of the United Nations General Assembly 10 years ago. As the President of the Russian Federation stated, with that unanimous decision, the international community expressed its determination to pass down to future generations the truth about the barbaric crimes of Nazism and to protect humanity against the evils of genocide, racism and extremism.

The General Assembly resolution on combating glorification of Nazism, neo-Nazism and other practices that contribute to fuelling contemporary forms of racism, racial discrimination, xenophobia and related intolerance, adopted on the initiative of the Russian Federation on 18 December 2014 at the sixty-ninth session of the General Assembly, was also aimed at preserving historical memory and forestalling any attempt to distort or falsify the outcome of the Second World War in the interests of political expediency. It is not only our duty but also a duty owed by the international community to those who sacrificed their lives in the battle against Nazism for the sake of peace and the triumph of human ideals. It is the obligation of all States to future generations, who must know the price that was paid to achieve that great Victory.

The fact that a bigoted theory of racial supremacy arose within European civilization demonstrates once again that neither technological advancement nor a highly developed culture are guarantees against xenophobia and racism. Humankind must remain vigilant.

The Federation Council of the Federal Assembly of the Russian Federation notes with great concern that repeated attempts are now being made to falsify our common history by placing equal blame for the outbreak of the Second World War on Nazi Germany and the Soviet Union, thereby putting the perpetrators and the victims of Nazism on an equal footing. That is an indication that present-day Europe provides fertile ground for the rise of nationalistic and race-based aggression and intolerance, and violations of the rights of ethnic minorities and their forced assimilation. Religious symbols are being denigrated and the shameful institution of so-called non-citizenship continues to exist.

It is deeply unfortunate that an attempt is being made to draw the Ukrainian people into this destructive process. The leader of the Ukrainian Government has publicly blamed the Soviet Union for the "invasion" of Germany and Ukraine, thereby insulting first and foremost the Ukrainian people, who made a unique contribution to the shared victory and bore more fully than other nations the brunt of Nazi aggression. It is disappointing that these absurd and unacceptable views — for which there is no historical explanation or moral justification — expressed by a representative of the current Ukrainian leadership have to date not been condemned by the leaders of most European countries, whose silence is reminiscent of the position taken by their predecessors towards the Nazi aggressors on the eve of the Second World War.

The Federation Council of the Federal Assembly of the Russian Federation firmly condemns such shameful and provocative statements and calls upon political and community leaders who share true human values, without exceptions or double standards, and above all our colleagues in the parliaments of European countries:

Not to allow the memory of the millions who died during the Second World War at the hands of Nazi criminals and their accomplices to be besmirched, and to firmly condemn any plans or actions to that effect;

To prevent the glorification of former members of the Waffen SS organization, Nazi, neo-Nazi, fascist and Banderite movements, and all other forms of collaboration with or support for Nazism;

To hold accountable anyone who allows denial of the Holocaust and genocide against "non-Aryan" peoples or who distorts historical facts, insults the memory of the liberators and glorifies their executioners.

The Federation Council of the Federal Assembly of the Russian Federation believes that only the united will of the peoples of the world can withstand the threat of neo-Nazism and political extremism at the State level when politicians and parties come to power that promote nationalistic ideology and justify the crimes of the past.

The historical lessons of the Holocaust must be neither forgotten nor misrepresented.

Question of the Falkland Islands (Malvinas)

Letter dated 11 February 2015 from the Permanent Representative of Brazil to the United Nations addressed to the Secretary-General

In my capacity as President Pro Tempore of the Southern Common Market (MERCOSUR) and associated States, I have the honour to inform you that the forty-seventh Ordinary Meeting of the Council of the Common Market and Summit of Presidents of MERCOSUR was held in Paraná, Argentine Republic, on 17 December 2014.

On that occasion, the Presidents of the MERCOSUR States parties and associated States agreed on a special communiqué and a paragraph of their joint communiqué that relate to the question of the Malvinas Islands. In paragraph 30 of the joint communiqué adopted by the MERCOSUR States parties and associated States, the Presidents:

> "Reaffirmed the terms of the Declaration of the Presidents of the States parties of MERCOSUR, the Republic of Bolivia and the Republic of Chile, signed on 25 June 1996 in Potrero de los Funes, Argentina, known as the Malvinas Declaration, and reiterated their support for the legitimate rights of the Argentine Republic in the sovereignty dispute concerning the question of the Malvinas Islands;
>
> Stressed that the adoption of unilateral measures is incompatible with United Nations decisions, and recalled that it is in the interests of the region for the prolonged sovereignty dispute between the Argentine Republic and the United Kingdom of Great Britain and Northern Ireland over the Malvinas Islands, South Georgia Islands and South Sandwich Islands and the surrounding maritime areas to be resolved as soon as possible, in accordance with the relevant United Nations resolutions and the declarations of the Organization of American States, MERCOSUR, the Union of South American Nations and other regional and multilateral forums;
>
> Recalled, in that context, that 16 December 2015 will mark the fiftieth anniversary of the adoption of General Assembly resolution 2065 (XX), which was the first to refer specifically to the question of the Malvinas Islands and which has been reiterated up to the present day by successive resolutions of the General Assembly and the Special Committee on decolonization, and noted

with satisfaction the significant contribution made by the United Nations Special Committee on decolonization in its consideration of the question over the 50 years since the adoption of resolution 2065 (XX);

Expressed their serious concern over the fact that there has been no substantial progress in the negotiations in the 50 years that have passed since the adoption of resolution 2065 (XX) and agreed that the next President Pro Tempore should reiterate the request to the Secretary-General of the United Nations to renew his efforts, pursuant to the mission of good offices entrusted to him by the General Assembly through successive resolutions, to bring about the resumption of negotiations in order to find a peaceful solution to the dispute as soon as possible, and to report on the progress made in the fulfilment of that mission".

In addition, the Heads of State of the MERCOSUR States parties and associated States adopted a special communiqué entitled "Hydrocarbon exploration and fishing on the Argentine continental shelf in the vicinity of the Malvinas Islands" (see annex).

I should be grateful if you would arrange to have the present letter and its annex circulated as a document of the General Assembly under agenda item 44, concerning the question of the Malvinas Islands.

Special communiqué

Hydrocarbon exploration and fishing on the Argentine continental shelf in the vicinity of the Malvinas Islands

The Presidents of the MERCOSUR States parties and associated States, meeting in the city of Paraná, Entre Ríos, on 17 December 2014 on the occasion of the forty-seventh Ordinary Meeting of the Council of the Common Market, reiterating their continued support for the legitimate rights of the Argentine Republic in the sovereignty dispute concerning the question of the Malvinas Islands:

Recalled the provisions of United Nations General Assembly resolution 31/49, which call upon Argentina and the United Kingdom to refrain from taking decisions that would imply introducing unilateral modifications in the situation while the islands are going through the process recommended by the General Assembly;

Reiterated their rejection of unilateral British activities, including the exploration and exploitation of renewable and non-renewable natural resources, in the disputed area;

Recognized the right of the Argentine Republic to take legal action, with full respect for international law and the relevant resolutions, in response to unauthorized hydrocarbon exploration and exploitation activities on its continental shelf, and drew attention to the recent declarations of the Latin American Energy Organization, the Latin American Integration Association and the Group of 77 and China in that regard;

Reaffirmed their commitment to exchanging available information, in accordance with international law, the international agreements in force and their respective domestic law, concerning:

(a) Any vessels or marine structures travelling to the Malvinas Islands, South Georgia Islands and South Sandwich Islands with cargo to be used for illegal hydrocarbon and/or mining activities on the Argentine continental shelf;

(b) The adoption of appropriate regulatory measures to prevent the entry into their ports of vessels or marine structures flying the illegal flag of the Malvinas Islands.

The information available from the competent national bodies will be circulated by the Ministries of Foreign Affairs.

Prevention of armed conflict

Security Council
Seventieth year

Letter dated 10 February 2015 from the Permanent Representative of Armenia to the United Nations addressed to the Secretary-General

Upon the instructions of my Government, I am writing to draw your attention to the ongoing violations of the ceasefire by the armed forces of the Republic of Azerbaijan recorded for the month of January 2015 (see annex).

The irresponsible provocative actions of Azerbaijan, including attacks of subversive groups and sniper shellings during the reporting period resulted in the death of a civilian Seryoja Sargsyan on 11 January and of soldiers Arman Harutyunyan, on 17 January; Suren Pilosyan, on 20 January; Nahapet Asatryan and Arman Udumyan, on 21 January; and Karen Galstyan and Artak Sargsyan on 23 January. Soldiers Volodya Harutyunyan, Narvik Stepanyan, Vardan Mkrtchyan, Andranik Asatryan, Misak Hakobyan, Hovanes Verdyan, Hovanes Gasparyan, Hovanes Avanesyan, Senik Vardanyan, Sos Movsisyan, Grisha Otaryan and Garik Varderesyan were wounded.

Armenia strongly condemns these continued provocations and the meaningless use of force by Azerbaijan and calls upon the latter to strictly observe the ceasefire regime.

I kindly request that the present letter and its annex be circulated as a document of the General Assembly, under agenda item 32, and of the Security Council.
